WHY USE A PURCHASING COOPERATIVE?

A purchasing cooperative is an arrangement, often among businesses or government agencies, to agree to aggregate demand to get lower prices from selected suppliers. It is often used by local and state government agencies to reduce the cost and effort of procurement.

WHY OMNIA PARTNERS?

OMNIA Partners, Public Sector is the nation's largest and most experienced cooperative purchasing organization dedicated to public sector procurement. The organization's immense purchasing power and industry-leading suppliers have produced a comprehensive portfolio of cooperative contracts and partnerships, making OMNIA Partners the most valued and trusted resource for organizations nationwide.

ADVANTAGES THAT GO BEYOND THE NUMBERS

- **Recognized:** Previously known as U.S. Communities, OMNIA Partners supplies cooperative contracts for 94% of agencies and serves over 35 industries in the public and private sectors.
- **Exclusive:** No other cooperative purchasing organization has access to the full BI product continuum, reducing the need for multiple RFPs and contracts.
- **Convenient:** Many agencies already have access to OMNIA Partners contracts through sister agencies and departments.
- **Efficient:** Since the OMNIA Partners contract was awarded to BI via a Lead Agency's competitive public solicitation and evaluation process, partner agencies can simply piggyback off that contract rather than going through their own RFP process.
- **Compliant:** All contracts are competitively solicited and publicly awarded, reducing compliance risks.
- **Cost-effective:** There are no costs or fees associated with membership or usage of services; plus, access to lowest BI rates.
- **Collaborative:** Agencies receive support throughout the entire procurement process, enhancing team efforts and outcomes.
